LETTER: Newspaper commentaries on income inequality appreciated

Dec 5, 2022

TO THE EDITOR: Thank you to **The Bernardsville News** for publishing the commentary of Linda Stamato and the letters from Jeffrey Kluger and Mark Thompson referring to the disastrous state of extreme income inequality.

The one percent of Americans have had their incomes expand since the pandemic while the incomes of the rest of people have declined or remain unchanged.

These one-percenters have used their wealth to support Republicans who promise to abolish Social Security and Medicare which many of these remaining people rely on to stay above the poverty level.

These three writers use facts to support their views and should be acknowledged for expressing the danger our country is in.

NANCY LEE McLURE

and FRANK SIWIEC
