Sidewalks preferred over widening roads in B[?]ville

Aug 5, 2005

EDITOR: Rather than spending town funds on widening roads that residents do not desire as a recent article notes, I would like to see sidewalks installed on heavily walked streets that do not have them. The beginning of Mine Mount Road has considerable vehicular traffic and numerous walkers. Mullins Lane is a second example. North Finley Avenue at the Bernards Township line has less pedestrians but very heavy traffic. FRANK SIWIEC 9 Bodnar St. Bernardsville
